

Standards, Compliance, and Enforcement Bulletin

August 31-September 7, 2026

Next week, the *Standards, Compliance, and Enforcement Bulletin* will become **Weekly Regulatory Updates** – a new name to reflect its expanded scope better. Along with the Standards, Compliance, Enforcement, Align/SEL, and Board of Trustees updates readers rely on, each issue will include Registration News, creating a more comprehensive weekly source for key regulatory developments.

STANDARDS NEWS

NEW Standards Committee (SC) Action to Support Transition to the Modernization of Standards Processes and Procedures (MSPP) Framework

SC Event Details

At its February 2026 meeting, the NERC Board of Trustees accepted the MSPP Task Force’s [Recommendations for Transforming the Reliability Standard Development Framework](#) to more effectively and efficiently develop Reliability Standards to meet the speed at which risks to the Bulk Power System emerge. Subject to regulatory approval, NERC staff expect implementation of the new standards development process framework as early as quarter 3 or 4 of 2027.

Standards, Compliance, and Enforcement Bulletin | August 31-September 7, 2026

Quick Links

[One-Stop Shop \(Status, Purpose, Implementation Plans, FERC Orders, RSAWs\)](#)
[Submit Questions or Feedback \(Help Desk – login with ERO Portal Credentials\)](#)

To facilitate an efficient and orderly transition to the new process, the SC took action during its August 19, 2026 meeting to discontinue the following low and medium priority standards development projects under the current process, with an intent to reconsider them under the new standards intake and prioritization process envisioned under the MSPP framework:

- [Project 2020-06 Verifications of Models and Data for Generators](#)
- [Project 2022-02 Uniform Modeling Framework for IBR](#)
- [Project 2023-05 Modifications to FAC-001 and FAC-002](#)
- [Project 2023-07 Transmission System Planning Performance Requirements for Extreme Weather](#)
- [Project 2023-08 Modifications of MOD-031 Demand and Energy Data](#)
- [Project 2026-01 PRC-006 Standard Updates](#)
- [Project 2022-04 EMT Modeling](#)
- [Project 2017-01 Modifications to BAL-003 - Phase II](#)
- [Project 2019-04 Modifications to PRC-005-6](#)
- [Project 2021-01 System Model Validation with IBRs](#)
- [Project 2021-02 Modifications to VAR-002-4.1](#)
- [Project 2021-08 Modifications to FAC-008](#)

Under the new process, the remaining active Standard Authorization Requests for these projects would be submitted as Standard Initiation Requests and evaluated through the MSPP framework to determine whether standards development activities should be initiated. Impacted project drafting teams will work with NERC staff to coordinate next steps.

Additional information on this SC action can be found on the SC event detail page linked above.

NEW Final Documents Posted: Project 2025-03 Order No. 901 Operational Studies | August 25, 2026

The drafting team is posting the final documents of FAC-011-5 - System Operating Limits Methodology for the Operations Horizon and TOP-003-9 - Transmission Operator and Balancing Authority Data and Information Specification and Collection, but is not conducting a final ballot, per the Standard Processes Manual (SPM) section 4.13.

NEW Slides and Recording Posted: Project 2026-02 Computational Loads

On August 27, the Drafting Team conducted a webinar focusing on the near-term, essential actions to integrate computational loads reliably onto the Bulk-Power System. These essential actions address the core, building-block reliability needs for computational loads.

Upcoming Standards Events		
Standard drafting team meetings and more can be found on NERC's calendar .		
Event Details	Time	Date
Standards Committee Meeting (Virtual)	1:00-3:00 p.m. Eastern	September 16, 2026
Standards Committee Meeting (In-person)	9:00 a.m.-2:00 p.m. Mountain	October 21, 2026
Standards Committee Meeting (Virtual)	1:00-3:00 p.m. Eastern	November 18, 2026
Standards Committee Meeting (Virtual)	1:00-3:00 p.m. Eastern	December 16, 2026

STANDARDS SUBJECT TO FUTURE ENFORCEMENT		
U.S. Effective Dates for Reliability Standards		
U.S. Effective Date	Standard(s)	Phased-In (Y/N)
October 1, 2026	PRC-024-4 – Frequency and Voltage Protection Settings for Synchronous Generators, Type 1 and Type 2 Wind Resources, and Synchronous Condensers Implementation Plan	No
	PRC-029-1 – Frequency and Voltage Ride-through Requirements for Inverter-based Resources Implementation Plan	Yes
	PRC-030-1 – Unexpected Inverter-Based Resource Event Mitigation Implementation Plan	Yes
	TOP-003-7 - Transmission Operator and Balancing Authority Data and Information Specification and Collection Implementation Plan	No
April 1, 2027	BAL-007-1.1 – Near-Term Energy Reliability Assessments Implementation Plan	No
April 1, 2028	MOD-032-2 – Data for Power System Modeling and Analysis Implementation Plan	Yes
July 1, 2028	CIP-002-8 – Cyber Security - BES Cyber System Categorization Implementation Plan	No
	CIP-003-10 – Cyber Security — Security Management Controls Implementation Plan	No

	CIP-004-8 – Cyber Security — Personnel & Training Implementation Plan	No
	CIP-005-8 – Cyber Security — Electronic Security Perimeter(s) Implementation Plan	No
	CIP-006-7.1 – Cyber Security — Physical Security of BES Cyber Systems Implementation Plan	No
	CIP-007-7.1 – Cyber Security — System Security Management Implementation Plan	No
	CIP-008-7.1 – Cyber Security — Incident Reporting and Response Planning Implementation Plan	No
	CIP-009-7.1 – Cyber Security — Recovery Plans for BES Cyber Systems Implementation Plan	No
	CIP-010-5 – Cyber Security — Configuration Change Management and Vulnerability Assessments Implementation Plan	No
	CIP-011-4.1 – Cyber Security — Information Protection Implementation Plan	No
	CIP-013-3 – Cyber Security - Supply Chain Risk Management Implementation Plan	No
October 1, 2028	CIP-015-1 – Cyber Security – Internal Network Security Monitoring Implementation Plan	No
April 1, 2029	IRO-010-6 – Reliability Coordinator Data and Information Specification and Collection Implementation Plan	No
	TOP-003-8 – Transmission Operator and Balancing Authority Data and Information Specification and Collection Implementation Plan	No
July 1, 2029	CIP-003-11 – Cyber Security – Security Management Controls Implementation Plan	No
October 1, 2029	CIP-015-2 – Cyber Security – Internal Network Security Monitoring Implementation Plan	No

COMPLIANCE AND ENFORCEMENT NEWS

REMINDER Small Group Advisory Sessions on CIP Standards Addressing Virtualization Effective in 2028

NERC, in collaboration with the Regional Entities, will host a Small Group Advisory Session (SGAS) for registered entities to discuss the revised CIP Standard Requirements and modified definitions addressing Virtualization developed in Standard Drafting Project 2016 02. In addition to reviewing the changes to CIP Reliability Standards with mandatory compliance dates in 2028, the SGAS will also discuss early adoption, “per system capability” reporting, and industry questions.

The SGAS will consist of two parts:

1. **General Session Live Webinar** – A general session will be held to discuss revisions of the NERC CIP Reliability Standards addressing Virtualization. The General Session will be held on Monday, December 7, 2026, from 1:00–3:00 p.m. Eastern. **Registration for a one-on-one session is not necessary to participate in this general session.**

Standards, Compliance, and Enforcement Bulletin | August 31–September 7, 2026

Quick Links

[Compliance Monitoring & Enforcement Program Resources](#)
[ERO Enterprise Program Alignment Process](#)
[Reliability Standard Audit Worksheets](#)
[Enforcement & Mitigation: Enforcement Actions Align and ERO SEL](#)

2. **SGAS One-on-One Sessions** – Closed, one-on-one discussions between a registered entity and ERO Enterprise (collectively NERC and Regional Entities) staff about issues pertinent to their compliance with the CIP Reliability Standards for Virtualization. These sessions will occur between Tuesday, December 8, 2026 – Friday, December 11, 2026. **NERC will schedule the one-on-one sessions after registration is received and is coordinated with Regional Entity staff.**

Request for Questions – To provide as much benefit as possible and address topics of concern from industry during the General Session, NERC is requesting industry submit any questions they may have relevant to the revised CIP Reliability Standards by ****October 5, 2026****. Please use the [link](#) to submit your questions, contact information, and categorization of questions (specific to CIP Standard or Requirement, Early Adoption/Implementation Plan, Per System Capability, Other). Multiple questions can be submitted in one request.

Registration

- **General Session Live Webinar:** Attendance is open to industry.
 - Link to [register](#) for General Session.
 - Attendees of the General Session are not required to register for a one-on-one session.
- **SGAS One-on-One Sessions:** NERC will accept SGAS one-on-one registrations on a first-come, first-serve basis; so, if the number of requests exceeds the time allotted, NERC will coordinate alternative arrangements.
 - The one-on-one sessions will be conducted virtually using Teams.
 - NERC will notify those who request an SGAS one-on-one session of their appointment time so the registered entity can make staff arrangements accordingly.
 - Please use the [link](#) to submit your request for a one-on-one session. Registration is free and is required by ****close of business, October 5, 2026****, with the following information:
 - Requestor name, title and contact information
 - Company Name and NCR(s)
 - Region(s) Registered
 - If the requestor intends to represent multiple entities, provide contact information for someone at each entity represented
 - Preferred time(s) for appointment (morning/afternoon)

For more information or assistance, please contact [Davis Jelusich](#).

Upcoming Compliance Events		
For a full accounting of upcoming events, please refer to NERC's calendar .

BOARD OF TRUSTEES AND FERC ACTION

NEW NERC Seeks Comment on MSPP ROP Revisions

The formal comment period for [proposed revisions to the ROP](#) developed as part of the Modernization of Standards Processes and Procedures (MSPP) Initiative is open **through October 26**. Stakeholders are invited to review the materials and provide comments on the ROP via [this link](#). Please visit the [MSPP initiative page](#) to find additional materials and more information on the supporting charter documents and updates to Appendix 3A (Standards Processes Manual).

REMINDER NERC Seeks Comment on Computational Loads ROP Revisions

On August 19, NERC posted proposed revisions to the NERC Rules of Procedure (ROP) Appendix 2, 5A, and 5B addressing computational loads for a 30-day comment period. Based on comments received from the April posting of initial proposed criteria, NERC is proposing additional revisions, including two new functional entity types, called “Computational Load Owner” and “Computational Load Operator.” Details can be found on the [Proposed Revisions to the Rules of Procedure page](#). Comments are due via email on **September 18, 2026**.

ABOUT THE STANDARDS, COMPLIANCE, AND ENFORCEMENT BULLETIN

Please email [Kelsi Boyd](#) with feedback on this bulletin. The current bulletin and old bulletins are available on the website under both [Standards News](#) and [Compliance News](#) sections.

REGISTRATION: If you would like to receive this bulletin or be added to a NERC distribution list, you **must** first register an account in the [ERO Portal](#). Once you have registered your ERO Portal account, authenticated your credentials with DUO, and completed your profile, please submit a ticket through the [Help Desk](#) by selecting the “NERC Email Distribution List” option under the Applications menu. In the Description Box, please specify which lists you would like your email address to be added to. If you are unsure of which distribution list you would like to be added to, an excellent starting point is the “[Committee](#)” page. You can note the committee abbreviation, which represents the distribution list you would like to join, in the Description Box. If you have other NERC-related or specific Standards projects you are interested in, you may request those as well. If you are interested in general information, please request to be added to the NERC-info distribution list, which covers most NERC announcements. This bulletin is distributed to several lists, including the Standards distribution list (Standards-specific announcements) and the NERC-info distribution list.
